

FIVECAST

LIGHT THE DARK

Fivecast is a world-leading provider of open-source intelligence (OSINT) solutions that enable the world's most important public and private organizations to explore masses of data, uncovering actionable insights which are critical to protecting global communities. Purpose-built to address the highest priority use cases in the national security, law enforcement, and defense markets, Fivecast deploys advanced data collection and AI-enabled analytics to solve the most complex intelligence challenges.

Based in Australia and with an established presence in the US, Fivecast is part of the trusted Five Eyes alliance and was born out of a unique collaboration between government agencies and world-leading research institutions to tackle big data challenges in national security and law enforcement including:

- Counter-terrorism
- Violent Extremist Threats
- Security Vetting & Insider Threats
- Transnational Organised Crime
- Drug, Human & Weapons Trafficking
- Force Protection
- Foreign Influence
- Fraud Detection

KEY CUSTOMERS

- Operational with law enforcement, border protection, intelligence & defense agencies, & corporate customers across Australia, the US & the UK

KEY PARTNERS

- Fivecast has an established ecosystem of trusted partners and resellers globally to deliver value to customers

QUALITY ACCREDITATIONS

- At the organization level, Fivecast implements a risk management process aligned with both ISO 31000 & NIST 800-30.
- At the product level, we use an agile development methodology that bakes quality into all stages of the process. All senior test analysts are ISTQB certified.
